SEASON 1891-'2.

Cloaks

Jackets

We have just received our Fall and Winter stock of Cloaks and Jackets, which comprises some of the most magnificent garments heretofore shown. This year we have the Misses' Jackets as well as Ladies'.

We suggest that those in need of a Jacket, Newmarket or Plush should look our line over, get our prices, and in the event of finding a garment to please them, have it laid aside until wanted, now that the stock and sizes are complete. Now is the time to buy. We are the first to show the fall line of above goods, and invite the ladies to look it over.

In the meantime we call especial attention to our

Dress Goods and Trimmings.

During the past two weeks we have shown them to a great many, and have received a large number of compliments for the elegant assortment we have brought on, besides our sales for this early have been very satisfactory.

No persons can do themselves justice in buying a dress until they have seen all the pleasing effects we take pride in exhibiting.

Another large invoice of

Carpets

has arrived. The celebrated Lowells figure conspicuously in this. The quality and the striking designs go to make up the best Carpet for the money to be found. We show this fall another grade of All Wool Carpets. Elegant patterns and prices less than the Lowells.

That tall, lean young man says he doesn't have to climb to the housetop "to view the electric lights," but if he did it would take more than a "Carr" load of "Pepper" to club him down.

The members of the Paw Paw and Lawrence Farmers' club were entertained at the home of Mr. and Mrs. Samuel Buskirk last Friday evening. The peaches were just simply delicious, as was all of the very elaborate supper, which no one knows better how to prepare than does the hostess of the occasion.

Our village is wearing a holiday garb in honor of the visiting veterans--almost every building wearing the red, white and blue in profusion. This is as it should be; too much respect cannot be shown the men who are our guests to-day.

At a reunion of the Wayne County (N. Y.) Soldiers' and Sailors' association, recently held at Sodus Point, Mrs. Dr. Dunning, of this place, who is visiting in that section, gave one of her charming recitations--"The Rising--Days of '76."

The Mendon Globe says St. Joseph county lost seven barns by fire within a period of ten days, a portion of which loss it attributes as a result of using low test oil. It is probable, too, that the insurance companies will refuse payment on policies in cases where the insured uses the Michigan test oil.

We are glad to report the gradual recovery of Ralph Jennings, who, some some ten days ago, took a genuine "header" from a 56-inch Ordinary by the breaking of a tire. Though no bones were broken, a severe internal injury was sustained, and time and skillful treatment will be necessary to restore the young man to his former robust health. Ralph says he shall patronize a Safety when he again mounts a wheel.

Will Gorton's little boy has the works of an old clock as a plaything, and the other night he was investigating its intricacies with his tongue. Some spring was touched which set the old thing off with a whirl, winding the lad's tongue in and holding him firmly. The neighbors were called in but could do nothing, and Dr. Dunning was equally powerless. The problem was finally solved by Mr. G. E. Chappell, who came and dissected the trap.

Sportsmen should bear in mind that, owing to the new law not taking immediate effect, partridge may be killed from Sep. 1 to Oct. 1, on which date the new law goes into effect, making the open season from Nov. 1 to Dec. 15, inclusive, in the lower peninsula, and Oct. 1 to Jan. 1, inclusive, in the upper peninsula. The new law makes the open season for woodcock from Aug. 15 to Dec. 15, but as this law does not take effect until Oct. 1, woodcock must only be killed this year from Sept. 1 to Dec. 15. Also, that after Oct. 1, 1891, nothing but hook and line can be used in any inland lake in Michigan.

The barn of a man named Spencer, living south of Lawrence, was burned on Monday afternoon of last week under peculiar circumstances. He was threshing, when what was supposed to be a dynamite cartridge hid in one of the bundles, exploded while going through the machine, blowing off the cylinder cap and setting fire to the straw, which ran out on the straw carrier, and in an instant everything was in a blaze. Some of the men had difficulty in escaping from the barn, which burned to the ground with a large quantity of grain. The separator was saved, but in a somewhat scorched condition.

Until the matter has been passed upon by the courts, the safest thing for policy holders to do is to absolutely refuse to purchase Michigan test oil. It is all right enough until a loss by fire is sustained, and then the insurance companies will set up the plea that the conditions of the policy have been defaulted by using on the premises burned oil of a lower test than that authorized by the commissioner of insurance. If your grocer don't keep anything but Michigan test oil, hunt up some one who does and buy of him. This will soon drive the dangerous stuff out of the market and we will have fewer fires and accidents to record.

A number of years ago a monstrous snake terrorized the people in the vicinity of Dowagiac, and if we are to believe the reports from that section his snakeship has entered an appearance again. He makes his headquarters in a swamp between the Tryon and Ward farms, and is described as being 25 feet long and as large as a stovepipe. Several reputable people have seen the reptile and vouch for its genuineness, else we should incline to the theory that it was but the outgrowth and natural sequence of the fact that Ed. Pattison has had a lot of bogus Kentucky whisky palmed off upon him as the genuine Blue Grass, Hand-Turned, Copper-Fastened, Anti-Friction article.

Messrs. Ed. Goodale and Frank Stapleton had rather a thrilling experience last Wednesday morning at Pugsley's lake. They were fishing some distance from shore, when by some means their boat capsized. When freed of their weight the boat came up, but in a reversed position from that of common usage. The boys clung to the craft until Frank Pugsley came to their assistance with another boat. As both were heavily clad, and the water was chilly, the result might have been serious had not their dilemma been discovered by Mr. P., who happened to be in the vicinity in the nick of time. As it was they were in the water about forty minutes, and pretty well exhausted when rescued.

Mrs. Maggie Pepper, on returning from making calls last Friday afternoon, found her home in the possession of her friends and neighbors, who were busily engaged in preparing an elegant picnic lunch, to which she was invited. When full justice had been done to this, she was marshaled into the parlor, where Mrs. Anna Barton, in one of those neat little speeches for which she is famous, presented the astonished hostess a pair of elegant easy chairs--one the gift of the neighbors and the other from her sons Charles, George and Dell--as birthday presents. Too much surprised for collected thought, the recipient could but bow her thanks, which were more eloquently expressed than could have been by choicest language. Other gifts from other members of her family, and congratulatory letters from absent ones, were in the hands of those present and delivered by Mrs. B. The affair was a very pleasant one.
